CPD Opportunities in the Midlands

For the past 12 months NHS England, Workforce Training & Education in the Midlands have been using pgvle.co.uk as a site containing all information about courses available in the region, as well as somewhere to undertake “instant access” CPD enabling you to gain CPD at a time that suits you.

What does the PGVLE look like?

When you first log into the PGVLE you will be presented with a screen of different “courses”.

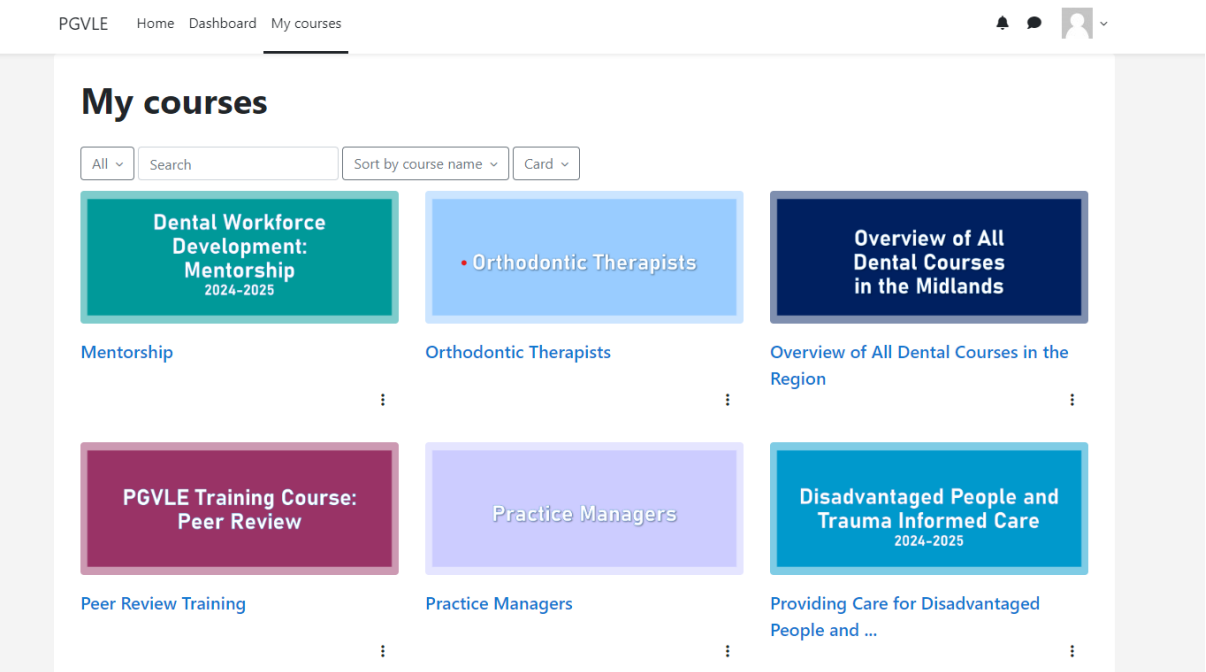

Figure 1 Screenshot of PGVLE main screen

Some will give you access to lists of courses available in the region, with some areas relating to individual registrant groups to enable you to easily find the courses relevant for you.

For example, clicking on the “Overview of all Dental Courses in the Midlands” tab you will see an area spotlighting different courses, then all courses available to book by month.

Other tabs like the “Disadvantaged People and Trauma Informed Care” will take you to an area to gain CPD in your own time. The training can be completed in stages.

PGVLE on your mobile

To make it easy to access this information you can download the moodle app. This means you can easily access training opportunities and gives the option of receiving notifications when new courses are added.

Once you have downloaded the app, type in pgvle.co.uk, then your username and password.

How to register

You will need to register to access both the online and mobile formats of the website. To do this you need to complete this form, and then await an email confirming registration (please note, this is not instant and can take up to 10 business days).

Problems?

If you have any problems accessing the PGVLE please email england.pgvledental.midlands@nhs.net
